The faculty are gratified in being able to inform the community, that, in addition to the laboratory already attached to the college, arrangements have been made for opening a dental infirmary, which will go into operation the ensuing session, and be conducted on the most liberal principles.

It is designed to extend relief, gratuitously, to all those who are too poor to pay a dentist, by simply defraying the cost of the material used in repairing the teeth.

All operations on the mouth and face will also be performed without charge.

This infirmary, it will be perceived, is a purely charitable institution, extending the same relief to the dental apparatus of all the destitute poor, that medical infirmaries do to diseases of other parts of the body.

It will also add greatly to the practical facilities which the college already furnishes the student, by giving him not only a better opportunity of daily witnessing the various operations, but also of taking part himself, and thus acquiring that practical tact so essential to the skillful dentist.

GREAT ENGLISH REMEDY

For Coughs, Colds, Asthms, and Consumption!

THE great and only remedy for Colds, Coughs, Asthms, and Consumption, is the Hungarian Balsam of Life, discovered by the celebrated Dr. Buchan of Lendon, England, and introduced into the United States under the immediate superintendence of the inventor.

The extraordinary success of this medicine in the curse of pulmonary diseases, warrants the American agent in soliciting for treatment the WORST POSIBLE CASES that can be found in the community; cases that seek relief in vain from any of the common remedies of the day, and have been given up by the most distinguished physicians as confirmed and incurable. The Hungarian Balsam has cured, and will cure, the most desperate of cases. It is no quack nostrum, but a standard English medicine, of known and established efficacy.

Every family in the United States should be supplied with Buchan's Hungarian Balsam of Life, not only to counteract the consumptive tendencies of the climate, but to be used as a preventive medicine in all cases of Colds. Coughs, Spitting of Blood, Pain in the Side and Chest, Irritation and Soreness of the Lungs, Bronchatis, Difficulty of Breathing, Hectic Fever, Night Sweats, Emaciation and General Debriity, Asthma, Influenza, Hooping-Cough, and Croup.

In Sold in large bottles at \$1 per bottle, with full directions for the restoration of health.

Pamphlets, containing a mass of English and American certificates, and other evidence, showing the unequalled merits of this great English remedy, may be obtained of the agents gratuiously.
